Made In USA

PARALLEL IN/OUT (1/4" JACKS)

Two 1/4" jacks which provide the means to input and "loop through" the signal source. These jacks are wired in parallel, it makes no difference which one is used for input or output.

LOW Z OUTPUT (XLR Jack)

A male XLR that provides a low-impedance (150 Ohm) balanced output suitable for connection to a mixing console or work station.

GROUND LIFT SWITCH

This switch disconnects the ground between the input connectors and the output connectors when set to the LIFT position. The ground is connected through when the switch is in the GND position.

This product is warranted to be free of defects in materials or workmanship to the original purchaser for a period of 3 years from the date of purchase. Should warranty service be required, return the unit postage paid along with the original sales receipt to:

Whirlwind Music Dist., Inc.
99 Ling Road
Rochester NY 14612

Whirlwind will, at its option, repair or replace the unit. This warranty does not cover damage resulting from abuse, unauthorized modifications or use of the product in unintended applications.
