

# BODYWORN MICROPHONES

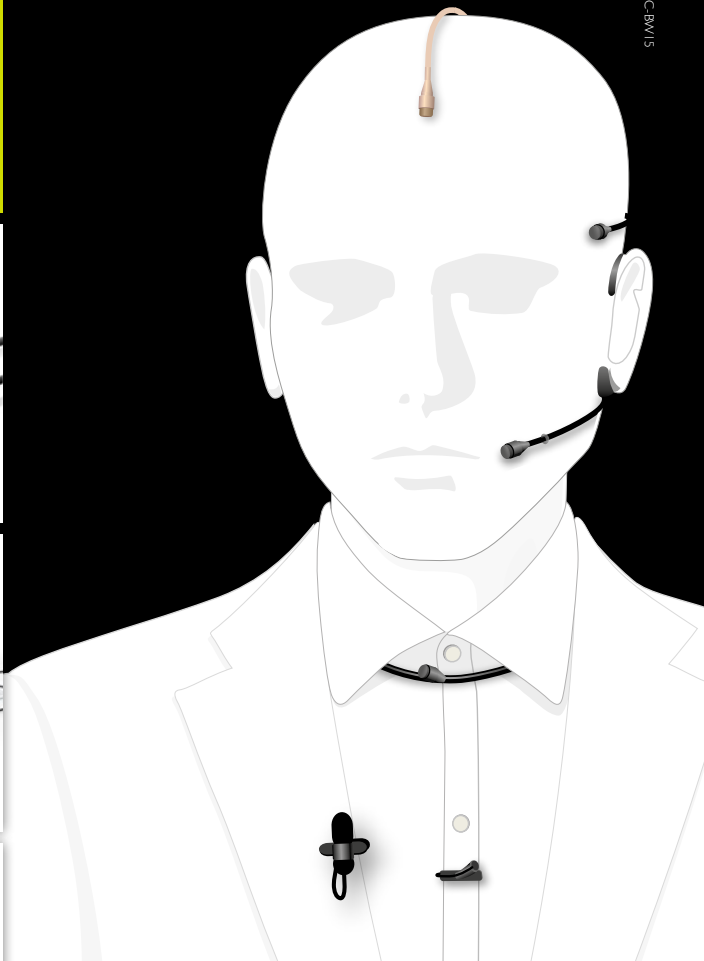

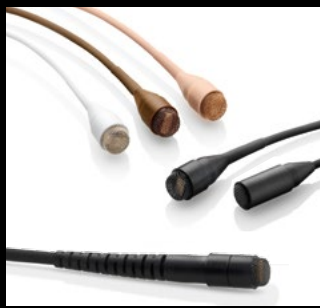

## GET CLOSER TO PURE PERFORMANCE

Unbeatable sound, minimal footprint

When both body and voice need to be free, a DPA Bodyworn Mic should be your go-to solution. Headset or miniature, visible or concealed, the d:fine™ & d:creet™ series of bodyworn microphones give you astoundingly accurate sound in an incredibly small design.

Made in Denmark

### d:screet™

Miniature microphones and accessories designed for professional voice reproduction in broadcast, film, installation and field applications. These versatile mics can be easily positioned anywhere on the body to capture the best possible sound for your specific assignment.

### d:flne™

Small and elegant headset microphones with professional sound. They are ideal for singers, public speakers, actors, musicians and broadcast professionals who place more importance on superior voice reproduction, comfort and easy setup, than concealment.
